The **property** must be located within the United Kingdom (excluding Northern Ireland, the Isle of Man and the Channel Islands). **Your** main heating system must either be fired by natural gas, oil or consist of electrical panel heaters.

### Claims limit

There are no limits to the number of claims that can be made under this cover. Up to £1,000 per claim for the cost of labour, parts and materials (including VAT). The only exception is for boilers and electric heaters which we deem to be beyond economical repair in which case we'll contribute £500 towards a replacement.

# Words with special meanings

In addition to the definitions within the **Policy documents**, wherever the following words appear in **bold** in this **policy** they will have the meanings as set out below:

## Engineer

A person employed or authorised (or both) by HomeServe to assist with **your** emergency.

**Investigative work** - Physical work is undertaken to understand the problem but it cannot be resolved under the Policy (for example; electrical testing, inspection of drains, diagnosing a Boiler or system that requires replacement or Maintenance Work).

**Main heating system** - The **main heating system** in **your property**. By **main heating system** we mean natural gas boiler systems no greater than 70 kilowatts, oil fired central heating and electric panel heaters provided they are permanently wired into **your** domestic electricity.

**Main heating system** does not mean:

- Underfloor heating, warm air, convection and fan convector heating systems.
- Electric and dual purpose boilers (e.g. Agas and Rayburns used for cooking and central heating)
- More than one boiler in the **property**.
- Combined heat and power systems.
- Power generation systems including solar panels and wind turbines.

## Policy documents

**Your** main TSB Essential and Enhanced Home Insurance policy document and important information document.

## Policy

**Your** Home Emergency cover as set out in this policy document, **your** main TSB Essential and Enhanced Home Insurance policy booklet and **your** current schedule.

## Property

**Your** house, flat, any attached outbuilding (for example, an internal garage) and the land within the boundary of **your property**. These must all be at the address shown on **your** schedule.

**Property** does not mean:

- any communal or service duct areas, and
- detached garages, sheds, greenhouses and non-permanent structures.

## We/Us/Our

Aviva Insurance Limited and/or HomeServe Membership Limited on behalf of Aviva.

## You/Your

The owner of the **property** who is named on the schedule and any person authorised to be in the **property** at the time of the emergency/incident.

# General conditions

In addition to the conditions set out in this section, the **General conditions** of the **Policy documents** also apply.

## Parking restrictions

When making a claim, **you** will be asked if there are any parking restrictions including the need for a parking ticket, a parking permit or inability to park within close proximity to **your property**.

Where no parking is available, this may affect **your** claim being dealt with promptly.

## Maintenance

It is **your** responsibility to ensure that normal day-to-day maintenance is undertaken, and that the **property** is in good condition.

HomeServe when carrying out a repair may diagnose that essential maintenance work is required to prevent future breakdown or blockages. For example:

- Where there is a build-up of sludge/scale/rust resulting in **your** boiler and/or central heating system needing cleaning
- Realigning a blocked drain to avoid a recurrence of the problem.

**We** will not be able to cover any future emergencies relating to such essential maintenance until it is carried out.

## Repairs and parts guarantee

Under this **policy**, the workmanship and any part(s) supplied and used by **us** to solve the problem will be guaranteed for a period of twelve months from the date the work is carried out.

**Your** statutory rights are not affected.

## Creating access

Upon arrival at **your property**, the **engineer** will locate the source of the incident. If direct access is not available, for instance if there are floor tiles or floorboards in the way, the **engineer** will need to create access. If **you** want the **engineer** to do this, **you** will be asked to confirm it in writing while the **engineer** is at **your property**. Unless stated in the "What's covered?" sub-sections, this **policy** does not provide **you** with cover for any damage which may be caused to the **property**, its contents, fixtures, fittings, floorings or sanitary ware (unless such damage is as a result of the **engineer's** negligence). If **you** do not want the **engineer** to create access, **we** will be unable to progress **your** claim until **you** have arranged for access to be made.

# General exclusions

In addition to the exclusions set out in this section, the **General exclusions** of the **Policy documents** also apply.
